| <b>Date:</b>                 | July 21, 2026                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>Time:</b>                 | 8:00 AM – 5:00 PM                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Department/Area:</b>      | IT Department                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>Activities Performed:</b> | <ol style="list-style-type: none"><li>1. Reviewed the existing database structure of the assigned system.</li><li>2. Created the Users and Transactions tables using MySQL.</li><li>3. Defined primary and foreign key relationships.</li><li>4. Developed SQL queries for insert, update, and retrieving records.</li><li>5. Tested database functions using sample data.</li><li>6. Updated the technical documentation.</li></ol> |
| <b>Outputs Completed:</b>    | <ul style="list-style-type: none"><li>• Created two database tables.</li><li>• Established relationships between tables.</li><li>• Completed and tested basic SQL queries.</li><li>• Updated the database documentation.</li></ul>                                                                                                                                                                                                   |
| <b>Hours Rendered:</b>       | 8 hours                                                                                                                                                                                                                                                                                                                                                                                                                              |

### B. Daily Learning Experience

|                                  |                                                                  |
|----------------------------------|------------------------------------------------------------------|
| <b>Learning/Knowledge Gained</b> | What new knowledge or concepts did I learn today?                |
| <b>Skills Developed</b>          | What technical or professional skills did I practice or improve? |
| <b>Challenges Encountered</b>    | What difficulties did I experience?                              |
| <b>Actions Taken</b>             | How did I address or overcome the challenges?                    |

|                     |                                                                     |
|---------------------|---------------------------------------------------------------------|
| <b>Key Takeaway</b> | What is the most important lesson I gained from today's experience? |
|---------------------|---------------------------------------------------------------------|
